Director of Publications and Communications
S. C. NELSON

Senior Technical Editor
V. BAKER

Technical Editor
R. J. MINTEER

CONTENTS OF VOLUME 70, 1980

No. 1 — JANUARY

1 **Acknowledgment of Reviewers**

4 **Author's Guide for Manuscript Preparation**

7 **Ralph Anthony Ludwig, 1915–1977** ..... J. G. Horsfall

ETIOLOGY

21 **Pathogenicity of Some Select Soilborne Dematiaceous Hyphomycetes on Germinating Seed of *Festuca rubra*** ..... J. P. Madsen and C. F. Hodges

31 **Symptomatology and Formation of Microsclerotia in Weeds Inoculated with *Verticillium dahliae* from Cotton** ..... W. M. Johnson, E. K. Johnson, and L. A. Brinkerhoff

PHYSIOLOGY AND BIOCHEMISTRY

35 **Effect on Host Hypersensitivity of Suppressors Released During the Germination of *Phytophthora infestans* Cystospores** ..... N. Doke, N. A. Garas, and J. Kuć

42 ***N*-[2-(2-Oxo-1-Imidazolidinyl) Ethyl]-*N'*-Phenylurea as a Protectant Against Ozone Injury to Laboratory Fumigated Pinto Bean Plants** ..... T. C. Weidensaul

54 **Factors Affecting Behavior and Developmental Synchrony of Germinating Oospores of *Pythium aphanidermatum*** ..... D. M. Ruben, Z. R. Frank, and I. Chet

ECOLOGY AND EPIDEMIOLOGY

13 **Survival of *Macrophomina phaseolina* in Soil and in Residue of Soybean** ..... G. E. Short, T. D. Wyllie, and P. R. Bristow

51 **Comparison of Tuberborne and Soilborne Inoculum in the Rhizoctonia Disease of Potato** ..... J. A. Frank and S. S. Leach

59 **The Law of the Minimum and the Relation Between Pathogen, Weather, and Disease** ..... P. E. Waggoner, W. A. Norvell, and D. J. Royle

64 **Inoculum Density of *Sclerotium cepivorum* and the Incidence of White Rot of Onion and Garlic** ..... F. J. Crowe, D. H. Hall, A. S. Greathead, and K. G. Baghott

70 **Vertical Distribution of Sclerotia of *Sclerotium cepivorum* and Host Root Systems Relative to White Rot of Onion and Garlic** ..... F. J. Crowe and D. H. Hall

74 **Soil Temperature and Moisture Effects on Sclerotium Germination and Infection of Onion Seedlings by *Sclerotium cepivorum*** ..... F. J. Crowe and D. H. Hall

RESISTANCE

17 **Virulence and Aggressiveness of *Phakopsora pachyrhizi* Isolates Causing Soybean Rust** ..... K. R. Bromfield, J. S. Melching, and C. H. Kingsolver

27 **Interactions of *Pythium ultimum* with Germinating Resistant or Susceptible Pea Seeds** ..... T. E. Stasz and G. E. Harman

39 **Initiation of Induced Nonhost Resistance of Oat Leaves to Rust Infection** ..... T. Tani, Y. Yamashita, and H. Yamamoto

DISEASE CONTROL AND PEST MANAGEMENT

8 **Selection for Tolerance in Organisms Exposed to Sprays of Biocide Mixtures: A Theoretical Model** ..... P. F. Kable and H. Jeffery

25 **Persistence of Benomyl-Tolerant Strains of *Cercospora beticola* in the Absence of Benomyl** ..... E. G. Ruppel, A. D. Jenkins, and L. M. Burtch

46 **Effect of Benomyl on *Phomopsis juniperovora* Infection of *Juniperus virginiana*** ..... J. D. Otta, D. J. Fiedler, and V. H. Lengkeek

No. 2 — FEBRUARY

79 **Max William Gardner, 1890–1979** ..... C. E. Yarwood

DISEASE DETECTION AND LOSSES

109 **End Rot, Surface Rot, and Stem Lesions Caused on Sweet Potato by *Fusarium solani*** ..... C. A. Clark

ETIOLOGY

89 **Aphid-Transmissibility Variants of Citrus Tristeza Virus in Infected Citrus Trees** ..... B. Raccah, G. Loebenstein, and S. Singer

131 **Tomato Scorch, a New Virus Disease of Tomatoes** ..... R. L. Clark, J. H. Hill, and M. D. Ellis

139 **A Red Spot Fruit Blemish in Apricots** ..... H. J. Larsen, Jr., R. P. Covey, Jr., and W. R. Fischer

156 **Isolation of a Caulimovirus from Strawberry Tissue Infected with Strawberry Vein Banding Virus** ..... T. J. Morris, R. H. Mullin, D. E. Schlegel, A. Cole, and M. C. Alosi

161 **The Role of Bacteria in the Root and Crown Rot Complex of Irrigated Sainfoin in Montana** ..... D. A. Gaudet, D. C. Sands, D. E. Mathre, and R. L. Ditterline

CYTOLOGY AND HISTOLOGY

98 **Physical Entrapment of Pseudomonads in Bean Leaves by Films Formed at Air-Water Interfaces** ..... D. C. Hildebrand, M. C. Alosi, and M. N. Schroth

PHYSIOLOGY AND BIOCHEMISTRY

94 **Role of Ethylene in the Response of Tomato Plants Susceptible and Resistant to *Meloidogyne incognita*** ..... D. B. Akitt, A. W. Bown, and J. W. Potter

ECOLOGY AND EPIDEMIOLOGY

80 **Pollination Effects on Pearl Millet Ergot** ..... R. P. Thakur and R. J. Williams

135 **Reduction of Pith Maceration by *Erwinia chrysanthemi* in Chrysanthemum Cuttings Infected with Chrysanthemum Stunt Viroid** ..... A. F. Silverglate, R. S. Dickey, and R. K. Horst

148 **Evaluation of Seedborne *Xanthomonas phaseoli* and *X. phaseoli* var. *fuscans* as Primary Inocula in Bean Blights** ..... D. M. Weller and A. W. Saettler

152 **Structural Characterization of Bean Root Rot Epidemics** ..... C. L. Campbell, L. V. Madden, and S. P. Pennypacker

VECTOR RELATIONS

122 **Transmission Interference Between Two Isolates of Barley Yellow Dwarf Virus in *Macrosiphum avenae*** ..... F. E. Gildow and W. F. Rochow

RESISTANCE

167 **Characterization of Resistance to Leaf Rust in Pacific Northwest Wheats** ..... E. A. Milus and R. F. Line

DISEASE CONTROL AND PEST MANAGEMENT

85 **Integrated Control of Rhizoctonia Fruit Rot of Cucumber** ..... J. A. Lewis and G. C. Papavizas

113 **New Systemic Fungicides for the Control of Cotton Seedling Disease** ..... G. C. Papavizas, J. A. Lewis, E. B. Minton, and N. R. O'Neill

119 ***Trichoderma harzianum*: A Biocontrol Agent Effective Against *Sclerotium rolfsii* and *Rhizoctonia solani*** ..... Y. Elad, I. Chet, and J. Katan

127 **Eradication of *Xanthomonas campestris*, the Causal Agent of Black Rot, from *Brassica* Seeds with Antibiotics and Sodium Hypochlorite** ..... H. S. Humaydan, G. E. Harman, B. L. Nedrow, and L. V. DiNitto

TECHNIQUES

142 **Immunochemical and Microscopical Techniques for Detecting Blackeye Cowpea Mosaic and Soybean Mosaic Viruses in Hypocotyls of Germinated Seeds** ..... J. A. A. Lima and D. E. Purcifull

172 **Erratum**

No. 3 — MARCH

173 **Thorvaldur Johnson, 1897–1979** ..... G. J. Green

174 **Eubanks Carsner, 1891–1979** ..... C. W. Bennett and J. S. McFarlane

175 **Letter to the Editor: Selection Pressures and Plant Pathogens: Robustness of the Model** ..... R. A. Fleming

DISEASE DETECTION AND LOSSES

185 **Detection of the Cadang-Cadang Associated RNA in African Oil Palm and Buri Palm** ..... J. W. Randles, G. Boccardo, and J. S. Imperial

ETIOLOGY

214 **Properties of Tobacco Yellow Dwarf and Bean Summer Death Viruses** ..... J. E. Thomas and J. W. Bowyer

226 **Isolation and Characterization of a Rod Shaped, Whitefly-Transmissible, DNA-Containing Plant Virus** ..... I. Sela, I. Assouline, E. Tanne, S. Cohen, and S. Marco

236 **Properties of Soybean Mosaic Virus Ribonucleic Acid** ..... J. H. Hill and H. I. Brenner

244 **Cowpea Stunt: Heterogeneous and Differential Reactions of Cowpea Cultivars** ..... G. Pio-Ribeiro and C. W. Kuhn

ECOLOGY AND EPIDEMIOLOGY

179 **Factors Affecting the Vertical Progression of Septoria Leaf Blotch in Short-Statured Wheats** ..... A. Bahat, I. Gelernter, M. B. Brown, and Z. Eyal

192 **Influence of Humidity and Red-Infrared Radiation on Spore Discharge by *Drechslera turcica*—Additional Evidence** ..... C. M. Leach

196 **Vibrational Releases of Conidia by *Drechslera maydis* and *D. turcica* Related to Humidity and Red-Infrared Radiation** ..... C. M. Leach

201 **Influence of Humidity, Red-Infrared Radiation, and Vibration on Spore Discharge by *Pyricularia oryzae*** ..... C. M. Leach

206 **Evidence for an Electrostatic Mechanism in Spore Discharge by *Drechslera turcica*** ..... C. M. Leach

229 **Saline Aerosol: Some Effects on the Physiology of *Phaseolus vulgaris*** ..... J. F. Petolino and I. A. Leone

232 **A Flexible Model for Studying Plant Disease Progression** ..... S. P. Pennypacker, H. D. Knoble, C. E. Antle, and L. V. Madden

240 **Reduction in *Fusarium* Populations in Soil by Oilseed Meal Amendments** ..... M. A. Zakaria and J. L. Lockwood

252 **Infection of Grape by *Guignardia bidwellii*—Factors Affecting Lesion Development, Conidial Dispersal, and Conidial Populations in Leaves** ..... R. A. Spotts

255 **Survival of *Colletotrichum graminicola*: Importance of the Spore Matrix** ..... R. L. Nicholson and W. B. C. Moraes

262 **Environmental Factors Influencing the Discharge of Basidiospores of *Gymnosporangium juniperi-virginianae*** ..... R. C. Pearson, R. C. Seem, and F. W. Meyer

GENETICS

223 **Restriction Enzyme Analysis of Plasmids from Syringomycin-Producing Strains of *Pseudomonas syringae*** ..... C. F. Gonzalez and A. K. Vidaver

250 **Cowpea Stunt: Inheritance Pattern of the Necrotic Synergistic Reaction** ..... G. Pio-Ribeiro, C. W. Kuhn, and B. B. Brantly

TECHNIQUES

189 **An Apparatus for Precise Control of Humidity, Temperature, Air Flow, and Light in Spore Discharge Studies** ..... C. M. Leach

232 **A Flexible Model for Studying Plant Disease Progression** ..... S. P. Pennypacker, H. D. Knoble, C. E. Antle, and L. V. Madden

POSTHARVEST PATHOLOGY AND MYCOTOXINS

218 ***Aspergillus* Colonization of Indian Red Pepper During Storage** ..... M. Seenappa, L. W. Stobbs, and A. G. Kempton

266 **Erratum**

No. 4 — APRIL

ETIOLOGY

307 ***Abutilon theophrasti*: Wild Host For Three Fungal Parasites of Soybean** ..... P. R. Hepperly, B. L. Kirkpatrick, and J. B. Sinclair

315 Detection and Characterization of Peru Tomato Virus Strains Infecting Pepper and Tomato in Peru ..... E. N. Fernandez-Northcote and R. W. Fulton

321 Characterization of a Tymo-like Virus Common in Poinsettia ..... R. W. Fulton and J. L. Fulton

333 Formae Speciales Differentiation of *Phytophthora megasperma* Isolates From Soybean and Alfalfa ..... T.-L. Kuan and D. C. Erwin

349 Differentiation of Syndromes Caused in Apple by Graft-Transmissible, Xylem-Affecting Agents ..... M. F. Welsh and J. K. Uyemoto

CYTOLOGY AND HISTOLOGY

273 Resistance to Fungal Penetration in Gramineae ..... R. T. Sherwood and C. P. Vance

327 Carnation Etched Ring Virus Inclusions: Serology and Ultrastructure of Alkaline-Treated Inclusions ..... R. H. Lawson and S. S. Hearon

PHYSIOLOGY AND BIOCHEMISTRY

267 Pectic Enzyme Complex from *Erwinia carotovora*: A Model for Degradation and Assimilation of Host Pectic Fractions ..... J. P. Stack, M. S. Mount, P. M. Berman, and J. P. Hubbard

282 Proteinase K-sensitive Factor Essential for the Infectivity of Southern Bean Mosaic Virus Ribonucleic Acid ..... V. Veerisetty and O. P. Sehgal

342 Effect of Protein Cross-linking Reagents and Sodium Dodecyl Sulfate on Southern Bean Mosaic Virus ..... O. P. Sehgal

ECOLOGY AND EPIDEMIOLOGY

293 Interactions Between a Vesicular-Arbuscular Mycorrhizal Fungus and Root-Knot Nematode on Soybean ..... M. K. Kellam and N. C. Schenck

301 Production of Sporangia by *Phytophthora cinnamomi* and *P. palmivora* in Soils at Different Matric Potentials ..... U. Gisi, G. A. Zentmyer, and L. J. Klure

310 A New Race of *Pseudomonas glycinea* ..... M. D. Thomas and J. V. Leary

338 Epidemiology of Grape Powdery Mildew: A Model ..... M. A. Sall

353 Soil Factors Affecting Survival of Microsclerotia of *Verticillium dahliae* ..... R. J. Green, Jr.

RESISTANCE

313 Comparative Reactions of Corn Inbreds to Oospore and Conidial Inoculum of *Peronosclerospora sorghi* ..... J. Craig

356 Effects of Infection by Compatible Species or Injection of Tissue Extracts on the Susceptibility of Nonhost Plants to Rust Fungi ..... M. C. Heath

POSTHARVEST PATHOLOGY AND MYCOTOXINS

325 Identification of Aflatoxin-Producing Atmospheric Isolates of *Aspergillus flavus* ..... G. Holtmeyer and J. R. Wallin

DISEASE CONTROL AND PEST MANAGEMENT

297 Biodegradation of Turf Thatch With Wood-Decay Fungi ..... S. B. Martin and J. L. Dale

TECHNIQUES

285 Performance of a Cyclone Spore Trap ..... K. G. Tate, J. M. Ogawa, W. E. Yates, and G. Sturgeon

290 Detection of Maize Chlorotic Mottle Virus Serotypes by Enzyme-Linked Immunosorbent Assay ..... J. K. Uyemoto

SPECIAL TOPICS

279 **Comparison of Immunized Mouse Ascites Fluids and Rabbit Sera in Serological Tests of Two Spiroplasmas** ..... C. S. Chen and T. A. Chen

No. 5 — MAY

361 **Letter to the Editor: Concepts for Modeling Root Infection by Soilborne Fungi** ..... R. G. Grogan, M. A. Sall, and Z. K. Punja

364 **Letter to the Editor: Some Thoughts on the Current and Future Health of Phytopathology and The American Phytopathological Society** ..... R. R. Nelson

ETIOLOGY

372 **Sorghum Downy Mildew: Biology of Systemic Infection by Conidia and of a Resistant Response in Sorghum** ..... Y. Yeh and R. A. Frederiksen

388 **Purification, Partial Characterization, and Serological Comparison of Soybean Mosaic Virus and its Coat Protein** ..... M. M. Soong and G. M. Milbrath

394 **A Closterovirus from a Stem-Pitting-Diseased Grapevine** ..... M. Conti, R. G. Milne, E. Luisoni, and G. Boccardo

CYTOLOGY AND HISTOLOGY

385 **Ultrastructure of Potato Spindle Tuber Viroid-Infected Tomato Leaf Tissue** ..... V. Hari

PHYSIOLOGY AND BIOCHEMISTRY

377 **Histochemical Changes in Oat Cell Walls After Victorin Treatment** ..... P. Hanchey

382 **Erysimum Latent Virus—Further Characterization as a Tymovirus** ..... D. D. Shukla, R. Koening, K. H. Gough, W. Huth, and D.-E. Lesemann

400 **Sensitivity of Sugarcane Clones to Toxin from *Helminthosporium sacchari* as Determined by Electrolyte Leakage** ..... R. P. Scheffer and R. S. Livingston

ECOLOGY AND EPIDEMIOLOGY

366 **Factors Affecting Parasitic Activity of *Sporidesmium sclerotivorum* on Sclerotia of *Sclerotinia minor* in Soil** ..... P. B. Adams and W. A. Ayers

422 **Survival, Spread, and Pathogenicity of *Phytophthora* spp. on Douglas-fir Seedlings Planted on Forest Sites** ..... E. M. Hansen, L. F. Roth, P. B. Hamm, and A. J. Julis

436 **Analysis of Recent Oat Stem Rust Epidemics** ..... A. P. Roelfs and D. L. Long

447 **Influence of *Glomus fasciculatus* and Soil Phosphorus on Phytophthora Root Rot of Citrus** ..... R. M. Davis and J. A. Menge

GENETICS

369 **Purification and Characterization of Cryptic Plasmids pLS1 and pLS2 from *Erwinia chrysanthemi*** ..... R. B. Sparks, Jr., and G. H. Lacy

392 **Hypothetical Genotypes for Low Reaction to *Puccinia recondita* in Eight Wheat Cultivars of India** ..... M. S. S. Reddy

RESISTANCE

429 **Growth Kinetics and Interactions of *Pseudomonas syringae* with Susceptible and Resistant Bean Tissues** ..... M. E. Daub and D. J. Hagedorn

DISEASE CONTROL AND PEST MANAGEMENT

404 **Mechanism of Biological Control in Soil Suppressive to *Rhizoctonia solani*** ..... S. Liu and R. Baker

412 **Mechanism of Biological Control in a Fusarium-Suppressive Soil** ..... F. M. Scher and R. Baker

418 **Physical, Biological, and Chemical Control Integrated for Soilborne Diseases in Potatoes** ..... Y. Elad, J. Katan, and I. Chet

441 **Toxicity of Pyroxychlor to *Pythium aphanidermatum*** ..... R. W. Tillman and M. W. Ferguson

444 **Influence of a Benzimidazole-Tolerant Isolate of *Ceratocystis ulmi* on the Control of Dutch Elm Disease with Methyl 2-Benzimidazole Carbamate Phosphate** ..... L. R. Schreiber and G. F. Gregory

453 **Pathogenicity and Canker Control by Mixtures of Hypovirulent Strains of *Endothia parasitica* in American Chestnut** ..... R. A. Jaynes and J. E. Elliston

TECHNIQUES

425 **Isolation Media for the Pierce's Disease Bacterium** ..... M. J. Davis, A. H. Purcell, and S. V. Thomson

ABSTRACTS

458 **Abstracts of papers presented at the 1979 meeting of the Northeastern Division**

456 **Erratum**

No. 6 — JUNE

471 **Letter to the Editor: Some Concepts of Physiological Plant Pathology** ..... F. L. Lukezic, J. Castano, S. M. Douglas, B. L. Illman, L. D. Lathrop, E. B. Lawrence, B. Nolt, M. H. Royer, C. A. Stockwell, and J. C. Stutz

ETIOLOGY

472 **Etiological Role of the Xylem-Limited Bacterium Causing Pierce's Disease in Almond Leaf Scorch** ..... M. J. Davis, S. V. Thomson and A. H. Purcell

534 **Grain Sink Size and Predisposition of *Zea Mays* to Stalk Rot** ..... J. L. Dodd

CYTOLOGY AND HISTOLOGY

513 **Teliospore Formation by *Ustilago scitaminea* in Sugarcane** ..... E. J. Trione

PHYSIOLOGY AND BIOCHEMISTRY

525 **Induction and Quantification of Microsclerotia in *Rosellinia necatrix*** ..... A. Sztejnberg, Z. Madar, and I. Chet

ECOLOGY AND EPIDEMIOLOGY

476 **Characterization of *Rhizoctonia* Populations Obtained from Sugarbeet Fields with Differing Soil Textures** ..... L. J. Herr and D. L. Roberts

481 **Effects of Initial Population Densities of *Heterodera schachtii* on Yield of Cabbage and Table Beets in New York State** ..... G. S. Abawi and W. F. Mai

485 **Host Range of *Kabatiella zeae*, Causal Agent of Eyespot of Maize** ..... F. J. B. Reifschneider and D. C. Arny

487 **Progression Dynamics of Hypocotyl Rot of Snapbean** ..... C. L. Campbell, S. P. Pennypacker, and L. V. Madden

495 **Reduction in Fusarium Population Density in Soil by Volatile Degradation Products of Oilseed Meal Amendments** ..... M. A. Zakaria, J. L. Lockwood, and A. B. Filonow

500 **Colonization and Distribution of *Xanthomonas phaseoli* and *Xanthomonas phaseoli* var. *fuscans* in Field-Grown Navy Beans** ..... D. M. Weller and A. W. Saettler

510 **Association of *Heterobasidion annosum* and the Southern Pine Beetle on Loblolly Pine** ..... S. A. Alexander, J. M. Skelly, R. S. Webb, T. R. Bardinelli, and B. Bradford

521 **Distribution of Hypocotyl Rot Caused in Snapbean by *Rhizoctonia solani*** ..... C. L. Campbell and S. P. cPennypacker

536 **Factors Associated with the Epidemiology of Soybean Mosaic Virus in Iowa** ..... J. H. Hill, B. S. Lucas, H. I. Benner, H. Tachibana, R. B. Hammond, and L. P. Pedigo

548 **Effect of Leaf Maturity and Shoot Age of Clones of *Populus* species on Susceptibility to *Melampsora larici-populina*** ..... J. K. Sharma, W. A. Heather, and P. Winer

560 **Effects of Oxidant Air Pollution on Susceptibility of Pine Roots to *Fomes annosus*** ..... R. L. James, F. W. Cobb, Jr., P. R. Miller, and J. R. Parmeter, Jr.

GENETICS

528 ***Tilletia aegopogonis*, a Homo-Heterothallic Bunt Fungus** ..... R. Durán

555 **Comparative Virulence of Badidiospore and Urediospore Cultures of Three Pathogenic Races of *Melampsor lini*** ..... G. D. Statler and R. E. Gold

POSTHARVEST PATHOLOGY AND MYCOTOXINS

516 **Fungal Growth, Aflatoxin Production, and Moisture Equilibration in Mixtures of Wet and Dry Corn** ..... D. B. Sauer and R. Burroughs

541 **Safe Storage Periods for Farm-Stored Rapeseed Based on Mycological and Biochemical Assessment** ..... J. T. Mills and R. N. Sinha

DISEASE CONTROL AND PEST MANAGEMENT

506 **Biological Control of Crown Gall with Fungal and Bacterial Antagonists** ..... D. A. Cooksey and L. W. Moore

558 **Influence of Polyethylene Oxide Seed Tape on Growth of *Rhizoctonia solani* and *Pythium aphanidermatum* and on Damping-off of Tomato** ..... M. Wetzel and W. E. Batson

ABSTRACTS

565 **Abstracts of Papers Presented at the Joint Meeting of The American Phytopathological Society, Southern Division, and the Southern Association of Agricultural Scientists**

573 **Awards and Honors Program of the 71st Annual Meeting of The American Phytopathological Society**

No. 7 — JULY

581 **Letter to the Editor: Races, Pathogenicity Phenotypes, and Type Cultures of Plant Pathogens** ..... L. E. Browder, F. L. Lyon, and M. G. Eversmeyer

DISEASE DETECTION AND LOSSES

680 **Powdery Mildew of Sugar Beet: Disease and Crop Loss Assessment** ..... F. J. Hills, L. Chiarappa, and S. Geng

ETIOLOGY

594 ***Acacia koa* Seedling Wilt Caused by *Fusarium oxysporum* f. sp. *koae*, f. sp. nov.** ..... D. E. Gardner

610 **Additional Hosts and an Efficient Purification Procedure for Four Viroids** ..... C. L. Niblett, E. Dickson, R. K. Horst, and C. P. Romaine

CYTOLOGY AND HISTOLOGY

618 **Colonization of Resistant and Susceptible Oaks by *Ceratocystis fagacearum*** ..... W. R. Jacobi and W. L. MacDonald

624 **Postpenetration Phenomena in Wheat Cultivars with Low Receptivity to Infection by *Puccinia graminis* f. sp. *tritici*** ..... D. Ashagari and J. B. Rowell

PHYSIOLOGY AND BIOCHEMISTRY

589 **Gibberellin A_4 Production by *Sphaceloma manihoticola*, Causal Agent of Cassava Superelongation Disease** ..... R. S. Zeigler, L. E. Powell, and H. D. Thurston

607 **Effect of Temperature and Moisture on Tenuazonic Acid Production by *Alternaria tenuissima*** ..... A. B. Young, N. D. Davis, and U. L. Diener

650 **Interaction of Light and Sterol on Sporangium and Chlamydospore Production by *Phytophthora lateralis*** ..... L. Englander and L. F. Roth

ECOLOGY AND EPIDEMIOLOGY

601 **The Spread of a Powdery Mildew of Peach** ..... P. F. Kable, P. M. Fried, and D. R. MacKenzie

615 **Seed Mycoflora of Soybeans Relative to Fungal Interactions, Seedling Emergence, and Carry Over of Pathogens to Subsequent Crops** ..... D. C. McGee, C. L. Brandt and J. S. Burris

638 **Transmission of *Xanthomonas phaseoli* in Seed of Resistant and Susceptible *Phaseolus* Genotypes** ..... C. R. Cafati and A. W. Saettler

641 **Leaf Wettability of Wheat in Relation to Infection by *Puccinia recondita* f. sp. *tritici*** ..... G. D. Statler and J. T. Nordgaard

663 **Role of *Penicillium funiculosum* Strains in the Development of Pineapple Fruit Diseases** ..... T-K. Lim and K. G. Rohrbach

683 **Horizontal Dispersal of Urediospores of *Puccinia recondita* f. sp. *tritici* and *P. graminis* f. sp. *tritici* from a Source Plot of Wheat** ..... M. G. Eversmeyer and C. L. Kramer

VECTOR RELATIONS

631 **Transmission of Two Purified Carlaviruses by the Pea Aphid** ..... K. A. Weber and R. O. Hampton

644 **The Median Latent Periods for Three Isolates of Barley Yellow Dwarf Virus in Aphid Vectors** ..... L. J. van der Broek and C. C. Gill

647 **Loss of Aphid Transmissibility of Turnip Mosaic Virus** ..... N. Sako

659 **Maize Bushy Stunt and Corn Stunt: A Comparison of Disease Symptoms, Pathogen Host Ranges, and Vectors** ..... L. R. Nault

GENETICS

666 **Sorting of *Puccinia recondita: Triticum* Infection-Type Data Sets Toward the Gene-for-Gene Model** ..... L. E. Browder and M. G. Eversmeyer

RESISTANCE

604 **Effect of *Puccinia coronata* on Straw Yield and Harvest Index of Oats** ..... M. D. Simons

634 **Greenhouse Evaluation of the Adult Plant Resistance of *Sr2* to Wheat Stem Rust** ..... S. D. Sunderwirth and A. P. Roelfs

675 **Effect of Host on Multiplication and Distribution of Bean Common Blight Bacteria** ..... C. R. Cafati and A. W. Saettler

DISEASE CONTROL AND PEST MANAGEMENT

584 **Hyperparasitization of Vesicular-Arbuscular Mycorrhizal Fungi** ..... B. A. Daniels and J. A. Menge

597 **Effect of Metalaxyl, an Acylalanine Fungicide, on Developmental Stages of *Phytophthora infestans*** ..... R. I. Bruck, W. E. Fry and A. E. Apple

628 **Interaction of Sequential Leaf Senescence of *Poa pratensis* and Pathogenesis by *Drechslera sorokiniana* as Influenced by Postemergent Herbicides** ..... C. F. Hodges

655 **Biological Control of *Rhizoctonia solani* with a Soil-Inhabiting Basidiomycete** ..... G. N. Odvody, M. G. Boosalis, and E. D. Kerr

670 ***Gliocladium virens*, a Destructive Mycoparasite of *Sclerotinia sclerotiorum*** ..... J. C. Tu

ABSTRACTS

687 **Abstracts of papers presented at the 1980 meeting of the Potomac Division**

No. 8 — AUGUST

695-696 **Letter to the Editor: A Reinterpretation of the Mathematical Analysis of Rhizoplane and Rhizosphere Effects** ..... K. J. Leonard

696-698 **Letter to the Editor: Estimating Parasitic Fitness of Plant Pathogenic Fungi: A Theoretical Contribution** ..... G. Skylakakis

699 **Letter to the Editor: Dutch Elm Disease and the Wicker Basket Theory** ..... J. N. Gibbs

DISEASE DETECTION AND LOSSES

730-733 **Time and Site of Infection of Resistant and Susceptible Germinating Pea Seeds by *Pythium ultimum*** ..... T. E. Stasz, G. E. Harman, and G. A. Marx

746-749 **Enzyme-linked Immunosorbent Assay for Pierce's Disease Bacteria in Plant Tissues** ..... S. F. Nomé, B. C. Raju, A. C. Goheen, G. Nyland, and D. Docampo

ETIOLOGY

756-760 **Verticillium Wilt of Yellow Poplar** ..... A. L. Morehart, F. M. Donohue III, and G. L. Melchior

766-771 **Pathogenicity of Three Species of *Pythium* to Seedlings and Mature Plants of Grain Sorghum** ..... R. G. Pratt and G. D. Janke

822-826 **Host-Parasite Relations in Uredial Infections of Peanut by *Puccinia arachidis*** ..... M. Cook

834-838 **Shasta Daisy Vascular Wilt Incited by *Acremonium Strictum*** ..... A. R. Chase and D. E. Munnecke

CYTOLOGY AND HISTOLOGY

715-719 **Substrate Effects on *Helminthosporium maydis* Race T Conidium and Germ Tube Morphology** ..... J. M. Potter, L. H. Tiffany, and C. A. Martinson

783-788 **Vacuole Dynamics in Fungal Plant Pathogens** ..... C. L. Wilson, G. A. Jumper, and D. L. Mason

802-807 **Relation Between Foliar Symptoms and Systemic Advance of *Cephalosporium gramineum* During Winter Wheat Development** ..... J. B. Morton, D. E. Mathre, and R. H. Johnston

PHYSIOLOGY AND BIOCHEMISTRY

727-729 **Production of Host-Specific Toxins by *Helminthosporium victoriae* and *H. maydis* in Liquid Shake Culture** ..... J. L. Van Etten and J. M. Daly

772-776 **Cell Walls of *Phytophthora infestans* Contain an Elicitor of Terpene Accumulation in Potato Tubers** ..... J. W. D. M. Henfling, R. M. Bostock, and J. Kuć

807-811 **Physiological Effects of *Cephalosporium gramineum* on Growth and Yield of Winter Wheat Cultivars** ..... J. B. Morton and D. E. Mathre

ECOLOGY AND EPIDEMIOLOGY

700-703 **Ecology of Cadang-Cadang Disease of Coconut Palm in the Philippines** ..... B. Zelazny

704-708 **Effects of Photochemical Oxidant Injury of Ponderosa and Jeffrey Pines on Susceptibility of Sapwood and Freshly Cut Stumps to *Fomes annosus*** ..... R. L. James, F. W. Cobb, Jr., W. W. Wilcox, and D. L. Rowney

723-726 **Infectivity of *Pythium* spp. Zoospores in Snow Rot of Wheat** ..... P. E. Lipps and G. W. Bruehl

749-753 **Host Range of *Pratylenchus hexincisus* and its Pathogenicity on Corn, Soybean, and Tomato** ..... M. E. Zirakparvar

788-793 ***Eutypa armeniacae* in Michigan Vineyards: Ascospore Production and Survival, Host Infection, and Fungal Growth at Low Temperatures** ..... A. T. Trese, C. L. Burton, and D. C. Ramsdell

794-797 **The Influence of Temperature and Water Potential on Asexual Reproduction by *Pythium* spp. Associated With Snow Rot of Wheat** ..... P. E. Lipps

817-820 **Distribution of Rickettsia-like Bacteria in Peach, and Their Occurrence in Plum, Cherry, and some Perennial Weeds** ..... J. M. Wells, D. J. Weaver, and B. C. Raju

VECTOR RELATIONS

709-712 **Leafhopper Transmission and Host Range of Maize Rayado Fino Virus** ..... L. R. Nault, R. E. Gingery, and D. T. Gordon

GENETICS

776-779 **Clubroot Resistance and Linkage in *Brassica campestris*** ..... R. V. James and P. H. Williams

POSTHARVEST PATHOLOGY AND MYCOTOXINS

761-764 **Interference Competition and Aflatoxin Levels in Corn** ..... D. T. Wicklow, C. W. Hesseltine, O. L. Shotwell, and G. L. Adams

RESISTANCE

812-817 **Identification of Resistance to Cephalosporium Stripe in Winter Wheat** ..... J. B. Morton and D. E. Mathre

826-830 **Peanut Leaf Wettability and Susceptibility to Infection by *Puccinia arachidis*** ..... M. Cook

DISEASE CONTROL AND PEST MANAGEMENT

712-715 **Suppression of *Pythium ultimum*-Induced Damping-Off of Cotton Seedlings by *Pseudomonas fluorescens* and its Antibiotic, Pyoluteorin** ..... C. R. Howell and R. D. Stipanovic

720-722 **Suppression of Sclerotinia Blight of Peanuts with Dinitrophenol Herbicides** ..... D. M. Porter and O. E. Rud

738-740 **Glyceollin Production Associated with Control of Phytophthora Rot of Soybeans by the Systemic Fungicide, Metalaxyl** ..... E. W. B. Ward, G. Lazarovits, P. Stössel, S. D. Barrie, and C. H. Unwin

741-746 **Big Vein of Lettuce: Infection and Methods of Control** ..... R. N. Campbell, A. S. Greathead, and F. V. Westerlund

754-755 **Elimination of Potato Spindle Tuber Viroid by Low Temperature and Meristem Culture** ..... R. E. Lizárraga, L. F. Salazar, W. M. Roca, and L. Schilde-Rentschler

797-801 **Fungitoxicity of Metalaxyl against *Phytophthora parasitica* var. *nicotianae*** ..... T. H. Staub and T. R. Young

TECHNIQUES

734-737 **Simulated Intrafield Dispersal of Maize Chlorotic Dwarf Virus by *Graminella nigrifrons* With a Rubidium Marker** ..... D. R. Alverson, J. N. All, and C. W. Kuhn

764-766 **Agarose Medium for Bioassay of Antimicrobial Substances** ..... W. C. Ho and W. H. Ko

780-782 **A Procedure for Isolation and Maintenance of *Peronospora destructor* on Onion** ..... A. A. Abd-Elrazik and J. W. Lorbeer

820-821 **A Method for Long-time Culture Storage of *Rhizoctonia solani*** ..... E. E. Butler

831-834 **Isolation of Specific Antibody to Plant Viruses by Acid Sucrose Density Gradient Centrifugation** ..... M. R. McLaughlin, G. R. Bryant J. H. Hill, H. I. Benner, and D. P. Durand

838 **Erratum**

No. 9 — SEPTEMBER

839 **J. Ralph Shay, 1918–1980** ..... E. B. Williams and R. L. Powelson

840-842 **Letter to the Editor: Estimating Parasitic Fitness: A Reply** ..... J. V. Groth and J. A. Barrett

842-843 **Letter to the Editor: Estimating Parasitic Fitness: Epilogue** ..... D. R. MacKenzie

DISEASE DETECTION AND LOSSES

900-902 **Leaf Infection and Yield Losses Caused by Brown Spot and Bacterial Blight Diseases of Soybean** ..... D. J. Williams and R. F. Nyvall

922-926 **Response of Potato Cultivars to Infection by the Potato Spindle Tuber Viroid** ..... M. A. Pfannenstiel and S. A. Slack

ETIOLOGY

843-846 **Pathogenicity of *Ceratobasidium cornigerum* and Related Fungi Representing Five Anastomosis Groups** ..... L. L. Burpee, P. L. Sanders, H. Cole, Jr., and R. T. Sherwood

847-850 **Decay and Colonization of Gladiolus Corms by the Pine Pitch Canker Fungus** ..... J. Barrows-Broaddus and L. D. Dwinell

909-913 **Partial Characterization of a Potyvirus Infecting the Milkweed Vine, *Morrenia odorata*** ..... R. Charudattan, F. W. Zettler, H. A. Cordo, and R. G. Christie

PHYSIOLOGY AND BIOCHEMISTRY

872-876 **Purification and Partial Characterization of Host-Specific Toxins Produced by *Periconia circinata*** ..... T. J. Wolpert and L. D. Dunkle

894-896 **Selective Toxicity of Isoflavonoid Phytoalexins to Gram-Positive Bacteria** ..... S. S. Gnanamanickam and D. A. Smith

ECOLOGY AND EPIDEMIOLOGY

851-854 **Incidence and Severity Relationships of Secondary Infections of Powdery Mildew on Apple** ..... R. C. Seem and J. D. Gilpatrick

863-867 **Epidemiology and Control of Citrus Greasy Spot on Grapefruit in Texas** ..... L. W. Timmer, R. J. Reeve and R. M. Davis

889-891 **Effect of Temperature and Moisture on Parasitization of *Heterodera schachtii* Eggs by *Acremonium strictum* and *Fusarium oxysporum*** ..... E. A. Nigh, I. J. Thomason, and S. D. Van Gundy

930-932 **Effects of Fertilizers on Slow Rusting in Wheat** ..... R. D. Wilcoxson

GENETICS

855-862 **A Comparison of Virulence Phenotypes in Wheat Stem Rust Populations Reproducing Sexually and Asexually** ..... A. P. Roelfs and J. V. Groth

867-871 **Cultural Variation Within *Typhula idahoensis* and *T. ishikariensis* and the Species Concept** ..... G. W. Bruehl and R. Machtmes

POSTHARVEST PATHOLOGY AND MYCOTOXINS

926-929 **Distribution of *Aspergillus flavus* and Other Fungi in Several Almond-Growing Areas of California** ..... S. L. Purcell, D. J. Phillips, and B. E. Mackey

RESISTANCE

897-899 **Genetics of Resistance to Stem Rust in Thirteen Wheats of Diverse Origins** ..... F. J. Gough, O. G. Merkle, and A. P. Roelfs

919-921 **Powdery Mildew Development on Soybeans with Adult-Plant Resistance** ..... J. S. Mignucci and S. M. Lim

DISEASE CONTROL AND PEST MANAGEMENT

877-880 **Effect of Furfural on the In Vitro Germination of *Peronosclerospora sorghi* Oospores** ... R. C. French and C. G. Schmitt

884-889 **Identification and Distribution of Fungal Parasites of *Heterodera schachtii* Eggs in California** ..... E. A. Nigh, I. J. Thomason, and S. D. Van Gundy

902-905 **Mushroom Brown Blotch: Effects of Chlorinated Water on Disease Intensity and Bacterial Populations in Casing Soil and on Pilei** ..... D. J. Royse and P. J. Wuest

905-908 **Cultural Practices and the Incidence of Sorghum Downy Mildew in Grain Sorghum** ..... D. M. Tuleen, F. A. Frederiksen, and P. Vudhivanich

TECHNIQUES

880-883 **Isolation of *Ceratocystis wageneri* from Forest Soil with a Selective Medium** ..... B. R. Hicks, F. W. Cobb, Jr., and P. L. Gersper

892-894 **Rapid Separation of *Sclerotinia minor* Sclerotia from Artificially and Naturally Infested Organic Soil** ..... A. A. Abd-Elrazik and J. W. Lorbeer

917-919 **A Method for Estimating Numbers of Viable Sclerotia of *Sclerotium rolfsii* in Soil** .. R. Rodriguez-Kábana, M. K. Beute, and P. A. Backman

SPECIAL TOPICS

914-916 **Ozone and Sulfur Dioxide-Induced Changes in Soybean Growth** ..... R. A. Reinert and D. E. Weber

No. 10 — OCTOBER

933 **Lawrence Henson, 1908–1978** ..... S. Diachun and R. A. Chapman

DISEASE DETECTION AND LOSSES

974-977 **Brown Spot Severity and Yield Reduction in Soybean** ..... S. M. Lim

1015-1018 **Detection of Potato Spindle Tuber Viroid in Field-Grown Potatoes by an Improved Electrophoretic Assay** ..... M. A. Pfannenstiel, S. A. Slack, and L. C. Lane

1023-1026 **Influence of Light on Maize Anthracnose in the Greenhouse** ..... R. A. Schall, R. L. Nicholson, and H. L. Warren

ETIOLOGY

962-968 **Natural Spread, Graft-transmission, and Possible Etiology of Walnut Blackline Disease** ..... S. M. Mircetich, R. R. Sanborn, and D. E. Ramos

1019-1022 **Properties of the Nucleoprotein Associated with Maize White Line Mosaic in Wisconsin** ..... G. A. de Zoeten, D. C. Arny, C. R. Grau, S. M. Saad, and G. Gaard

CYTOLOGY AND HISTOLOGY

934-938 **The Impact of Peroxyacetyl Nitrate on Conductance of Bean Leaves and on Associated Cellular and Foliar Symptom Expression** ..... J. T. Metzler and E. J. Pell

941-946 **Relation Between Infection by *Rhizoctonia solani* and *R. oryzae* and Disease Severity in Rice** ..... D. S. Marshall and M. C. Rush

947-950 **Infection Cushion Formation on Rice Sheaths by *Rhizoctonia solani*** ..... D. S. Marshall and M. C. Rush

998-1004 **Ultrastructure of Lesion Formation in Rhizoctonia-Infected Bean Hypocotyls** ..... L. A. Kenning and P. Hanchey

PHYSIOLOGY AND BIOCHEMISTRY

991-994 **The Influence of Soil Fertility and Water Stress on the Ozone Response of Hybrid Poplar Trees** ..... R. Harkov and E. Brennan

1005-1008 **Hydrogen Cyanide Sensitivity in Bacterial Pathogens of Cyanogenic and Non-Cyanogenic Plants** ..... L. A. Rust, W. E. Fry, and S. V. Beer

ECOLOGY AND EPIDEMIOLOGY

938-941 **Effect of Temperature and Host:Parasite Combination on the Latent Period of *Puccinia recondita* in Seedling Wheat Plants** ..... M. G. Eversmeyer, C. L. Kramer, and L. E. Browder

981-986 **Predisposition Effect of Water Saturation of Soil on Phytophthora Root Rot of Alfalfa** ..... T. L. Kuan and D. C. Erwin

994-998 **Induction of Suppressiveness to *Rhizoctonia solani* in Soil** ..... I. Chet and R. Baker

1009-1013 **Infection and Mycelial Colonization of Gramineous Hosts by *Sclerophthora macrospora*** ..... P. H. Dernoeden and N. Jackson

VECTOR RELATIONS

1013-1015 **Importance of Capsid Integrity for Interference Between Two Isolates of Barley Yellow Dwarf Virus in an Aphid** ..... F. E. Gildow and W. F. Rochow

RESISTANCE

951-954 **A Stochastic Model of Horizontal Resistance Based on Frequency Distributions** ..... D. I. Rouse, R. R. Nelson, and D. R. MacKenzie

958-961 **Inheritance of Resistance to Cucumber Mosaic Virus Transmission by *Aphis gossypii* in *Cucumis melo*** ..... M. Pitrat and H. Lecoq

969-970 **Localized Influence of *Meloidogyne incognita* on Fusarium Wilt Resistance of Flue-Cured Tobacco** ..... G. W. Moorman, J. S. Huang, and N. T. Powell

977-980 **A New Major Gene for Resistance to *Phytophthora megasperma* var. *sojae* in Soybean** ..... K. L. Athow, F. A. Laviolette, E. H. Mueller, and J. R. Wilcox

987-990 **Correlation Between Root and Stem Reactions of Alfalfa to *Phytophthora megasperma* f. sp. *medicaginis*** ..... J. A. G. Irwin, D. P. Maxwell and R. R. Smith

DISEASE CONTROL AND PEST MANAGEMENT

971-973 **Efficacy of Polyethyleneglycol and Organic Solvents for Infusing Fungicides into Soybean Seeds** ..... B. J. Shortt and J. B. Sinclair

TECHNIQUES

954-957 **An Indirect Radioimmunoassay of Cauliflower Mosaic Virus** ..... U. Melcher, R. A. Hein, C. O. Gardner, Jr., M. W. Shockey, and R. C. Essenberg

990-991 **A Simplified Medium for Growing *Cercospora arachidicola*** ..... T. E. Starkey

No. 11 — NOVEMBER

1027 **Ernest Victor Abbott, 1899–1980** ..... J. E. Irvine

DISEASE DETECTION AND LOSSES

1036-1038 **Use of Paraquat to Aid Detection of Fungi in Soybean Tissues** ..... R. F. Cerkauskas and J. B. Sinclair

ETIOLOGY

1028-1032 **Purification and Serology of Papaya Ringspot Virus** ..... D. Gonsalves and M. Ishii

CYTOLOGY AND HISTOLOGY

1050-1055 **Mode of Penetration of Sycamore Leaves by *Gloeosporium platani*** ..... D. Seifers and V. Ammon

1104-1109 **A Comparison of Nematode and Bacteria-Colonized Galls Induced by *Anguina agrostis* in *Lolium rigidum*** ..... A. F. Bird, B. A. Stynes, and W. W. Thomson

PHYSIOLOGY AND BIOCHEMISTRY

1039-1042 **Characterization of Endopolygalacturonase Produced by *Rhizoctonia solani* in Culture and During Infection of Cotton Seedlings** ..... L. W. Brookhouser, J. G. Hancock and A. R. Weinhold

1066-1069 **Chemotaxis of *Erwinia amylovora*** ..... A. K. Raymundo and S. M. Ries

1074-1078 **Effect of Abscisic Acid on Rishitin and Lubimin Accumulation and Resistance to *Phytophthora infestans* and *Cladosporium cucumerinum* in Potato Tuber Tissue Slices** ..... J. W. D. M. Henfling, R. Bostock, and J. Kuć

ECOLOGY AND EPIDEMIOLOGY

1033-1036 **Nitrogen Effects on the Pathogenicity of *Drechslera sorokiniana* and *Curvularia geniculata* on Germinating Seed of *Festuca rubra*** ..... J. P. Madsen and C. F. Hodges

1047-1049 **Effects of Soil Temperature on Growth of Beans in Relation to Soil Compaction and Fusarium Root Rot** ..... D. W. Burke, D. E. Miller, and A. W. Barker

1056-1061 **Taxonomic Distribution of Native Mississippi Grass Species Susceptible to Maize Dwarf Mosaic and Sugarcane Mosaic Viruses** ..... E. Rosenkranz

1062-1065 **Motility of *Erwinia amylovora*** ..... A. K. Raymundo and S. M. Ries

1070-1073 **Infection Periods of *Gymnosporangium juniperi-virginianae* on Apple** ..... H. S. Aldwinckle, R. C. Pearson, and R. C. Seem

1078-1082 **Effects of Rhizosphere Colonization by Plant Growth-Promoting Rhizobacteria on Potato Plant Development and Yield** ..... J. W. Kloepper, M. N. Schroth and T. D. Miller

1083-1087 **Infection Site, Infection Period, and Latent Period of Canker Caused by *Anisogramma anomala* in European Filbert** ..... T. R. Gottwald and H. R. Cameron

1087-1092 **Disease Increase and the Dynamics of Spread of Canker caused by *Anisogramma anomala* in European Filbert in the Pacific Northwest** ..... T. R. Gottwald and H. R. Cameron

1101-1103 **Parasitization of Pine Stem Rust Fungi by *Monocillium nordinii*** ..... A. Tsuneda and Y. Hiratsuka

1110-1115 **Isolation of Pectolytic Fluorescent Pseudomonads from Soil and Potatoes** ..... D. A. Cuppels and A. Kelman

GENETICS

1042-1046 **Genetics of Pathogenicity in *Puccinia coronata*: Pathogenic Specialization at the Host Genus Level** ..... N. Eshed and A. Dinoor

RESISTANCE

1097-1100 **Components of Rate-Reducing Resistance in Seedlings of Four Wheat Cultivars and Parasitic Fitness in Six Isolates of *Erysiphe graminis* f. sp. *tritici*** ..... D. I. Rouse, R. R. Nelson, D. R. MacKenzie, and C. R. Armitage

DISEASE CONTROL AND PEST MANAGEMENT

1119-1122 **Use of Thermotherapy to Free Potato Tubers of Alfalfa Mosaic, Potato Leaf Roll, and Tomato Black Ring Viruses** ..... W. J. Kaiser

TECHNIQUES

1092-1096 **Factors Affecting Staining of *Sclerospora graminicola* Oospores with Triphenyl Tetrazolium Chloride** ..... R. J. Williams, M. N. Pawar, and I. Huibers-Govaert

1116-1118 **Evaluation of Inoculation Techniques and Rating Dates for Fusarium Ear Rot of Opaque-2 Maize** ..... T. J. Gulya, Jr., C. A. Martinson, and P. J. Loesch, Jr.

No. 12 — DECEMBER

1123 **George Herbert Coons, 1885–1980** ..... D. Stewart and M. K. Roane

ETIOLOGY

1190-1192 **Effects of Benomyl and Ribavirin on the Lettuce Big Vein Agent and its Transmission** ..... R. N. Campbell

CYTOLOGY AND HISTOLOGY

1206-1208 **Mode of Infection and Early Colonization of Slash Pine Seedlings by *Cronartium quercuum* f. sp. *fusiforme*** ..... T. Miller, R. F. Patton, and H. R. Powers, Jr.

PHYSIOLOGY AND BIOCHEMISTRY

1134-1140 **In Vitro Protein Polymerization by Quinones or Free Radicals Generated by Plant or Fungal Oxidative Enzymes** ..... G. F. Leatham, V. King, and M. A. Stahman

1217-1220 **Revised Estimates of the Molecular Weights of dsRNA Segments in Hypovirulent Strains of *Endothia parasitica*** ..... J. A. Dodds

ECOLOGY AND EPIDEMIOLOGY

1143-1148 **Comparative Pathogenicity and Host Ranges of *Fusarium oxysporum* Isolates Causing Crown and Root Rot of Greenhouse and Field-Grown Tomatoes in North America and Japan** ..... R. C. Rowe

1148-1153 **Influence of the Pathogen on Disease Severity in Stemphylium Leafspot of Alfalfa in California** ..... W. A. Cowling and D. G. Gilchrist

1153-1157 **Effect of Temperature and Moisture Tension on Growth, Sclerotial Production, Germination, and Infection by *Sclerotinia minor*** ..... E. D. Imolehin, R. G. Grogan, and J. M. Duniway

1158-1161 **Effects of Oxygen, Carbon Dioxide, and Ethylene on Growth, Sclerotial Production, Germination, and Infection by *Sclerotinia minor*** ..... E. D. Imolehin and R. G. Grogan

1162-1167 **Factors Affecting Survival of Sclerotia, and Effects of Inoculum Density, Relative Position, and Distance of Sclerotia from the Host on Infection of Lettuce by *Sclerotinia minor*** ..... E. D. Imolehin and R. G. Grogan

1167-1172 ***Trichoderma hamatum* Effects on Seed and Seedling Disease Induced in Radish and Pea by *Pythium* spp. or *Rhizoctonia solani*** ..... G. E. Harman, I. Chet, and R. Baker

1187-1190 **The Role of Sporangia in the Epidemiology of Pearl Millet Downy Mildew** ..... S. D. Singh and R. J. Williams

1196-1199 **Effects of Phosphorus and Potassium Fertilization on Septoria Glume Blotch of Wheat** ..... B. M. Cunfer, J. T. Touchton, and J. W. Johnson

1200-1205 **Effect of Nontreated Field Soil on Sporulation of Vesicular-Arbuscular Mycorrhizal Fungi Associated with Soybean** ..... J. P. Ross

1212-1214 **Effect of Exchangeable Soil Aluminum and Alkaline Calcium Salts on the Pathogenicity and Growth of *Phytophthora capsici* from Green Pepper** ..... J. J. Muchovej, L. A. Maffia, and R. M. C. Muchovej

1214-1216 **Influence of Root Biomass on Number of *Pratylenchus penetrans* Within Host Roots** ..... B. A. Jaffe

1221-1224 **Predisposition of Bean Roots to Attack by the Pea Pathogen, *Fusarium solani* f. sp. *pisi*, Due to Temporary Oxygen Stress** ..... D. E. Miller, D. W. Burke, and J. M. Kraft

RESISTANCE

1141-1143 **Comparison of Six Geographic Sources of Loblolly Pine for Fusiform Rust Resistance** ..... H. R. Powers, Jr., and F. R. Matthews

1183-1186 **New Sources of Slow Leaf Rusting Resistance in Wheat** ..... G. Shaner and R. E. Finney

1193-1196 **Twelve *Pyrenophora trichostoma* Races for Virulence to Wheat in the Central Plains of North America** ..... W. Cório da Luz and R. M. Hosford, Jr.

1224-1226 **Apparent Infection Rates of *Pyricularia oryzae* on Different Rice Cultivars** ..... R. L. Villareal, D. R. MacKenzie, R. R. Nelson, and W. R. Coffman

DISEASE CONTROL AND PEST MANAGEMENT

1172-1174 **Fitness of *Venturia pirina* Isolates Resistant to Benzimidazole Fungicides** ..... E. Shabi and T. Katan

1175-1179 **Efficacy of Two New Systemic Fungicides and Ethazole for Control of Phytophthora Root Rot of Rhododendron and Spread of *Phytophthora cinnamomi* in Propagation Benches** ..... L. Englander, J. A. Merlino, and J. J. McGuire

1209-1212 **Suppression of the Apple Collar Rot Pathogen in Composted Hardwood Bark** ..... D. E. Spring, M. A. Ellis, R. A. Spotts, H. A. J. Hoitink, and A. F. Schmitthenner

TECHNIQUES

1124-1128 **Open-Air Fumigation System for Investigating Sulfur Dioxide Effects on Crops** ..... J. E. Miller, D. G. Sprugel, R. N. Muller, H. J. Smith, and P. B. Xerikos

1179-1182 **Probits for Analyzing Latent Period Data in Studies of Slow Rusting Resistance** ..... G. Shaner

SPECIAL TOPICS

1129-1133 **Sulfur Dioxide Effects on Yield and Seed Quality in Field-Grown Soybeans** ..... D. G. Sprugel, J. E. Miller, R. N. Muller, H. J. Smith, and P. B. Xerikos

INDEX
For Volume 70

INDEX FOR VOLUME 70

AUTHOR AND SUBJECT INDEX. Page number of illustrations are in parentheses. Pages of errata are in italics.

Abawi, G. S., 458, 481
Abd-Elrazik, A. A., 780, 892
Abstracts
  Northeastern division, 458
  Potomac division, 687
  Southern division, 565
Abutilon theophrasti, host for soybean parasites, 307
Acacia koa, Fusarium seedling wilt of, new f. sp., 594, (595)
Acladium tenellum, parasitism and nutrition of, 690
Acremonium strictum
  on shasta daisy, vascular wilt from, 834, (836)
  sugar beet cyst nematode eggs parasitized by, 889
Adams, G. L., 761
Adams, P. B., 366, 687
Adams, R. E., 687, 688
Adlerz, W. C., 568
Aegopogon tenellus, Tilletia aegopogonis on, in Mexico, homoheterothallism, 528, (529, 531)
Agaricus bisporus
  aflatoxin in, occurrence and degradation, 691
  bacilliform virus from, RNA translation in, 469
  brown blotch of, chlorinated water effect, 902
  Pseudomonas tolaasi on, chlorinated water for control, 468
  virus disease of, contaminated soil transmission, 688
Agrobacterium radiobacter, cherry crown gall controlled by, 506
Aist, J. R., 463
Akitt, D. B., 94
Albizzia julibrissin, virus-like symptoms in, particles and inclusion bodies in leaves of, 569
Aldwinckle, H. S., 458, 459, 463, 467, 1070
Alexander, S. A., 510, 687
Alfalfa
  bacteria and nematode interaction on, 459
  Hoplolaimus galeatus on, histopathology, 466
  Phytophthora megasperma on, formae speciales in, 333, (336)
  Phytopthhora megasperma on roots and stems of, correlations, 987
  Phytophthora root rot of
    root-knot nematode effect, 694
    water saturation of soil effect, 981, (982, 984)
  Pratylenchus penetrans on, root biomass effect on number, 1214
  Stemphylium leafspot of, disease severity in California, 1148
Alfalfa mosaic virus
  in potato, thermotherapy for, 1119
  on white clover, growth and nodulation effect, 567
Alger, L. A., 687
All, J. N., 734
Almond
  leaf scorch disease of, etiology, 472
  Aspergillus flavus and other fungi on, distribution in California, 926
Alosi, A. C., 98
Alosi, M. C., 156
Alternaria sp., on African marigold, in South Carolina, 571
  alternata
    on apricot, red spot fruit blemish from, 139, (140, 141)
    on red fescue seeds, pathogenicity, 21
  solani
    on potato, nitrogen fertilizer for control, 465
    on tomato, forecasting system, 690
  tenuissima, tenuazonic acid produced by, temperature and moisture effect on, 607
Alverson, D. R., 734
Alves, L. M., 458
American Phytopathological Society
  Ruth Allen award, 579
  CIBA-Geigy award, 580
  fellows, 574
Ammon, V., 1050
Ananas comosus (see Pineapple)
Andersen, J. L., 458, 460
Anguina agrostis, on *Lolium,* nematode and bacterial galls compared, 1104, (1105–1108)
Anisogramma anomala
  on *Corylus avellana,* epidemiology, 1087
  on hazelnut, infection and canker formation, 1083
Anquillospora pseudolongissima, hyperparasite of *Glomus* spp., 584, (586)
Anthonomus grandis, on cotton, boll rot fungi related to, 570
Antibiotic (see also Antimicrobial substances)
  pyoluteorin, from *Pseudomonas fluorescens,* cotton damping-off affected by, 712
Antimicrobial substances (see also Antibiotic)
  bioassay of, agarose medium for, 764
Antle, C. E., 232
Anzola, D., 692
Aphis gossypii
  vector for citrus tristeza virus, 89
  vector for cucumber mosaic virus, on melon, resistance to, 958
Apple
  Bot canker of, development and control, 565
  cedar apple rust on, infection periods, 1070
  collar rot of, composted hardwood bark for suppression of, 1209
  crown rot syndrome of, pythiaceous fungi in, in New York, 463
  decay of, calcium treatment effect, 688
  decline of, winter injury relation, 460
  Erwinia amylovora on
    blossom susceptibility, 458
    chemicals for, 467
    control by nonpathogenic bacteria, 459

disease control in, factors affecting injected chemicals, 461
Dutch elm disease of
chemical for, 444, 458
thermal imagery detection, 687
scorch-associated bacteria on, relation to Pierce's disease, 689
wetwood of, intrastem gases assayed, 466
Elsinoë wisconsinensis, vacuolar phagocytosis in, 783, (784–786)
Endocronartium harknessii, Monocillium nordinii parasitic on, 1101, (1103)
Endothia parasitica
on chestnut, strain mixtures for biocontrol, 453
isolates of, growth and sporulation, 694
types of dsRNA in, 1217
Englander, L., 650, 1175
Enzymes
cellulase, wound-induced resistance to, lignin role, 462
endopolygalacturonase, *Rhizoctonia solani* in cotton seedlings, 1039
oxidative, plant and fungal origin, protein polymerization by, 1134
pectic complex, from *Erwinia carotovora,* 267
Epidemiology
apple powdery mildew, secondary infections, 851
bean root rot epidemics, structural characterization of, 152, *266*
foliage diseases, sanitation measures for, negated by disease increase rate, 570
grape powdery mildew, model, 338
Guignardia bidwellii on grape, factors affecting lesions and conidia, 252
Gymnosporangium juniperi-virginianae, environmental factors affecting spore discharge, 262
law of the minimum, pathogen, weather, and disease relation, in mildew and rust, 59
oat stem rust epidemics, analysis of, 436
parasitic fitness
estimation, letter to editor, 840
letter to editor, 842
peach powdery mildew, in Australia, 601
pearl millet downy mildew, role of sporangia, 1187
plant disease progression, model for 232, *456*
rhizoplane vs. rhizosphere modeling, letter to editor, 361
rice blast, infection rate in Ivory Coast, 1224
Sclerotinia minor, on lettuce, factors affecting, 1153, 1158, 1162
Sclerotium cepivorum and incidence of white rot on onion and garlic, 64, 70, 74
Septoria leaf blotch in wheat, 179
snapbean hypocotyl rot, progression dynamics of, 487
spore discharge related to factors, apparatus for, 189
tomato early blight, 690
wheat leaf and stem rust urediospores dispersed, 683
Errata
Vol. 69, 172
Vol. 70, 266, 456, 838
Erwin, D. C., 333, 981
Erwinia
amylovora
on apple
blossom susceptibility, 458
chemicals for, 467
chemotaxis of, 1066
inhibition of, with bacteriocins, 459
motility of, 1062, (1063)
on sainfoin, role in root and crown rot, 161
carotovora, pectic enzyme complex from, 267
chrysanthemi
on chrysanthemum, chrysanthemum stunt viroid effect on, 135, (136)
plasmids of, purification and characterization, 369, (370)
herbicola
bacteriocin from, purification, 469
bacteriocin produced by, effect on *E. amylovora,* 463
Erysimum latent virus, characterization of, 382, (383)
Erysiphe
betae, on sugar beet, disease and loss assessment, 680
graminis hordei, on barley, resistance related to papillae, 463
graminis tritici
on wheat
epidemic of, component line effect, 641
resistance components in, 1097
Eshed, N., 1042
Eskew, E. B., 568
Essenberg, R. C., 954
Euonymus fortunei, anthracnose of, etiology, 465
Eutypa armeniacae, on grape, factors affecting, 788

Fulton, R. W., 315, 321
Fungicides (general) (see also Fungicides, specific)
on apple, residues on leaf, 459
for apple powdery mildew, combinations, 694
bacterial speck on tomato, copper compounds for, 467
for bluegrass blight control, relation to *Fusarium* and *Helminthosporium,* 570
fireblight of apple, control, 467
foliar-, and soil fumigation, wheat yield effect, 462
Fusarium scab control, in wheat, 572
lettuce big vein controlled by, 741
for lettuce mildew, 459
Naemacyclus needlecast of pine, 466
onion white rot controlled by, 464
pecan vein spot disease controlled by, 570
on potato, root diseases of, integrated control use, 418
for Rhizoctonia fruit rot of cucumber, 85
for rice blast control, soil application, 460
soybean seeds infused by, role of polyethyleneglycol and organic solvents, 971
for strawberry anthracnose control, 566
systemic-
for cotton seedling disease, 113
for Phytophthora root rot of rhododendron, phytotoxicity, 1175
for rice blast, 694
theoretical model of selection for tolerant forms, 8
Fungicides (specific) (see also, Fungicides, general)
benomyl
Botrytis cinerea resistant strains to, 567
Cercospora beticola strains tolerant to, 25
cotton seedling disease affected by, 113
effect on *Olpidium brassicae* and lettuce big vein, 1190
for Phomopsis blight of juniper, 46
Uncinula necator resistant strains to, on grape, 467
benzimidazole, *Venturia pirina* isolates resistant to, 1172
Lignasan BLP, Dutch elm disease controlled by, 444
metalaxyl
for late blight of potato, 458, 597
Phytophthora parasitica inhibited by, mode of action, 797, (798)
for Phytophthora rot of soybean, 738

pyroxychlor, toxicity to *Pythium aphanidermatum*, 441
ridomil
oomycetes resistant to, 459
sunflower downy mildew control, 468
thiabendazole, use in Dutch elm disease, factors affecting, 461
triazole, for apple powdery mildew, 469
Fusarium spp.
on asparagus, flower, fruit, and seed infection, 462
on asparagus seeds, elimination of, 461
on bluegrass, relation to Helminthosporium blight, 570
in soil
media for isolation, 691
population density reduced by oilseed meal amendments, 495
on soybean, relation to soilborne fungi, 615
graminearum, on wheat, fungicides for scab control, 572
moniliforme
corn ear rot caused by, inoculation technique with opaque-2 lines, 1116
on corn, mycoparasite associated with, 690
on corn and asparagus, 461
moniliforme subglutinans, on gladiolus corms, 847, (848)
oxysporum
soil populations, oilseed meal amendments for reduction, 210
on soybean, herbicide effect on, 693
sugar beet cyst nematode eggs parasitized by, 889
suppressed in soil, mechanism of, 412
on tobacco, relation to root-knot nematode, 969
tomato crown and root rot from, host range, 1143, (1145, 1146)
on tomato, soil fungi antagonistic to, 569
oxysporum gladioli, on gladiolus corms, 847, (849)
oxysporum koae, Acacia seedling wilt caused by, 594, (595)
oxysporum lycopersici
genetic recombination in, 465
on tomato, temperature and nematode effect, 466
oxysporum vasinfectum, on *Cassia obtusifolia*, herbicide and rhizosphere relation, 565
roseum, on bluegrass, histological study, 468
solani
soil populations, oilseed meal amendments for reduction, 240
on sweet potato, symptoms of, 109, (110)
solani coeruleum, effect of Japanese millet on, in culture and soil, 460
solani phaseoli
on bean
epidemic characterization, 152
oxygen stress effect, 1221
root rot related to soil temperature and compaction and bean growth, 1047
phaseollin from, detoxification of, 464
on snapbean hypocotyls, progression dynamics of, 487
solani pisi
on bean, oxygen stress effect, 1221
on chickpea, interactions, 461
on pea, *Rhizobium leguminosarum* interaction, 462

Peronosclerospora sorghi
  on corn, inbred reaction to, 313
  oospore germination in, 877, (879)
  on sorghum
    cultural practice effect, 905
    infection biology and resistance, 372, (374, 375)
Peronospora destructor, on onion, isolation and maintenance technique, 780
Perryman, J. F., 570
Perryman, M. B., 570
Peru tomato virus, on pepper and tomato in Peru, 315, (316, 317)
Peterson, K. E., 692
Petolino, J. F., 229
Pfannenstiel, M. A., 922, 1015
Phakopsora pachyrhizi, on soybean, virulence of isolates, 17, (19)
Phaseolus vulgaris
  bacterial blight of
    colonization and distribution of pathogen in fields, 500
    distribution and multiplication on host, 675
  blights of, seedborne inoculum, evaluation of, 148
  on cotton, ammonia effect on infection, 570
  Fusarium root rot, soil temperature and compaction effect on growth of, 1047
  Fusarium solani phaseoli and *pisi* on, oxygen stress effect, 1224
  growth of, temperature-water potential effect, 571
  hypocotyl rot of, progression dynamics of, 487
  nitrate reduction in, cadmium effect, 461
  ozone injury to, chemical protection against, 42
  peroxyacetyl nitrate effect on, histology, 934, (936)
  phaseollin produced in, detoxification by *Fusarium*, 464
  physiology of, saline aerosol effect on, 229
  Pseudomonas syringae on, resistance to, 429, (433–435)
  Rhizoctonia on hypocotyls of, lesion ultrastructure, 998, (1000–1002)
  Rhizoctonia solani on hypocotyl of, distribution in Pennsylvania, 521
  root rot of, epidemic characterization, 152
  Sclerotium and *Rhizoctonia* disease of, biocontrol with *Trichoderma*, 119
  Xanthomonas phaseoli on, seed transmission, 638
Phillips, D. J., 926
Phipps, P. M., 692
Phoenix dactylifera, cadang-cadang disease of, RNA detection in, 185
Phomopsis sp., on soybean, relation to soilborne fungi, 615
  juniperovora, on juniper, benomyl effect on, 46
  sojae, on *Abutilon theophrasti*, 307
Phyllocoptruta oleivora, on citrus, epidemiology and control, 863
Physiology of disease,
  enzymes, fungal or plant oxidative, protein polymerization relation, 1134
  Phytophthora infestans, cystospore germination, suppressors released, hypersensitivity affected, 35
Physiology of microorganisms
  concepts, letter to editor, 471
  Erwinia carotovora, pectic enzyme complex from, 267
  Phytophthora lateralis, light and sterol effect on sporulation, 650
Phytoalexin
  in bean, resistance relation, 470
  elicitors of, in potato tuber by *Phytophthora infestans*, 772
  glyceollin, production in soybean related to metalaxyl, 738
  isoflavonoids, selective antibacterial activity of, 894
  lubimin and rishitin in potato, abscisic acid effect on, 1074
  phaseollin, from bean, detoxification by *Fusarium*, 464
  pisatin, demethylase activity in, properties, 470
Phytophthora spp.
  on Douglas-fir, pathogenicity and survival, 422
  on rhododendron, etiology and control, 565
  cactorum,
    on apple,
      composted hardwood bark effect on suppression, 1209
      crown rot syndrome relation, 463
  capsici
    on pepper, aluminum and calcium salt effect on, 1212
    ridomil resistance induced in, 459
  cinnamomi
    chlamydospores of, produced in soil, 571
    on rhododendron, fungicides for, and symptoms, 1175
    sporangium produced by, in soil, matrix potential effect, 301, (304)
  infestans
    abscisic acid effect on rishitin and lubimin accumulation, 1074
    cystospore germination in, suppressors released during, host effect, 35
    on potato
      metalaxyl for control, 597
      resistance to, multigenic, 694
      systemic fungicide for, 458
      terpenes elicited in tubers by, 772
    potato tuber resistance to, age effect, 688
    sesquiterpenoid stress metabolites in tubers, 688
  lateralis, sporangium and chlamydospore production by, light and sterol interactions, 650
  megasperma
    on alfalfa, relation to nematodes, 694
    from alfalfa and soybean, formae speciales in, 333, (336)
    on soybean, glyceollin production related to metalaxyl, 738
  megasperma medicaginis
    on alfalfa
      predisposition by water in soil, 981, (982, 984)
      root and stem correlation, 987
  megasperma sojae, on soybean, new major gene for resistance, 977
  palmivora, sporangium produced by, in soil, matrix potential effect, 301
  parasitica
    on citrus, relation to *Glomus fasciculatus*, 447
    on tobacco, metalaxyl toxic to, 797, (798)
Pieczarka, D. J., 458, 570
Pierce's disease

almond leaf scorch relation, 472
on grapevine, ELISA technique for, 746
isolation medium for bacterium, 425
rough lemon citrus disease caused by, 568

tree effect, 468
white pine growth affected by, 687
on white pine, wax association, 693
ozone and peroxyacetylnitrate, comparison in New Jersey, 464
ozone and SO_2
effect on *Pratylenchus penetrans* infected tomato, 565
maple leaf growth affected by, 463
soybean growth changed by, 914
ozone, SO_2, and NO_2, white pine effect, 694
peroxyacetyl nitrate, effect on bean leaves, histology, 934, (936)
photochemical oxidant injury, on pine, relation to *Fomes annosus*, 704
poplar stems affected by, 467
saline, bean physiology affected by, 229
salt, chloride uptake from, factors, 469
SO_2
fumigation system for, open-air, crop effect, 1124
soybean effect, yield and seed quality, 1129
SO_2 and NO_2, white pine growth affected by, 693
water-, cadmium, effect on bean nitrate reduction, 461
Poplar
air pollutant effect on stems of, 467
oxidant pollution effect on hybrid of, 463
ozone effect on, soil fertility and water stress effect, 991
Populus spp., rust of, leaf and shoot age effect, 548
Poria latemarginata, on peach, in Texas, 571
Porter, D. M., 720
Portulaca oleracea, cucumber mosaic virus on, tobacco relation, 461
Potato
disease of, detection by TV and infrared radiation, 465
early blight of, nitrogen fertilizer for control, 465
growth-promoting rhizobacteria effect on, 1078, (1081)
late blight of
metalaxyl for control, 597
resistance to, 694
systemic fungicide for, 458
leafroll in, clustered tubules in cell walls of, 469
ozone and soil-borne pathogen effects on, 690
Phytophthora infestans of, hypersensitivity, spore germination suppressors affecting, 35
Rhizoctonia disease of, tuberborne vs. soilborne inoculum, 51
soilborne diseases of, integrated control, 418
stress metabolites in tuber of, regulation, 458
terpene in tubers of, elicited by *Phytophthora infestans*, 772
thermotherapy used to free tubers of three viruses, 1119
Potato leafroll virus,
thermal unit accumulation and reservoir effect, 469
thermotherapy for, 1119
Potato spindle tuber viroid
detection in potato by electrophoretic assay, 1015
hosts and purification methods, 610, (612, 613)
potato cultivar response to, 922, (923, 924)
temperature and meristem culture for elimination, 754
ultrastructure of, in tomato leaf, 385, (386, 387)
Potato virus X, on tomato, tomato scorch caused by, with TMV, 131, (132)
Potter, J. M., 715
